KEEP YOUR FILTRATION RUNNING AT PEAK EFFICIENCY

VLS Technologies manufactures high-precision replacement filter screens in AISI 304 and AISI 316L stainless steel, engineered to ensure excellent filtration efficiency, durability and reliable performance even under demanding operating conditions.

Precision, Compatibility and Maximum Durability

KEY BENEFITS

UNIVERSAL COMPATIBILITY

Replacement screens for all major pressure filter brands.

PREMIUM STAINLESS STEEL

High-quality AISI 304 and AISI 316L for excellent chemical, thermal and mechanical resistance.

PRECISE FILTRATION

Uniform mesh construction for accurate particle retention and consistent product clarity.

OPTIMIZED PERFORMANCE

Designed to maintain efficient flow rates and reliable filtration throughout the production process.

CUSTOM-MADE SOLUTIONS

Manufactured according to your specifications, drawings or existing samples.

THE RIGHT SCREEN. THE RIGHT PERFORMANCE.

Whatever pressure filter you operate, VLS Technologies can provide the replacement screen you need to keep your filtration process performing at its best.
